Give your business
the MAXIMA advantage

MAXIMA HOST

Every business needs to keep their critical IT infrastructure running 24X7X365 days a year. A downtime of even one second or any performance degradation because of bandwidth fluctuations can cascade into manifold losses. It also may not make business sense to invest in large IT departments in order to have better control over such situations as it would increase overall costs substantially. So, what can be done?

The solution is right here.
Maxima Host from Reliance Data Center

Maxima Host is a unique cluster of service offerings that includes powerful and robust dedicated hardware, sizable amount of Internet bandwidth and many Value Added Services such as backup, monitoring, etc.
All security services such as Firewall, IPS, Antivirus are also built-in to take care of your critical data security requirements.

Salient features :

- Large Internet data transfer included in plans
- Built-in enterprise-class managed Value Added Services
- Quick deployment
- Scalable & upgradable on short notice
- "Best of Breed" technology & hardware brands
- 99.99% network uptime guaranteed
- Complete access & full control of server
- Fully managed hardware and OS platform
- World-class data hosting facilities
- Gigabyte connectivity access from anywhere in India and across the world
- 24X7X365 support & trouble resolution
